API Access Request

**Your email address**

samuel.harrold@gmail.com

**Which role best describes your reason for requesting API access?**

I'm a developer

**What is your inquiry?**

I'm a developer and want to build a Reddit App that does not work in the Devvit ecosystem.

Developers should go through Devvit first, you can find out more about Devvit [here](#). Only use this form if your bot/app is not supported by Devvit.

**Reddit account name**

sstarrold

**What benefit/purpose will the bot/app have for Redditors?**

Research findings will be shared with the academic community to improve healthcare communication. No individual Reddit users will be identifiable in any publications.

\*\*Research Contact:\*\* Dr. Emily Kinney, Indiana University, School of Medicine (emkinney@iu.edu)

**Provide a detailed description of what the Bot/App will be doing on the Reddit platform.**

TECHNICAL DESCRIPTION - READ-ONLY RESEARCH TOOL

This application is a command-line research tool that performs READ-ONLY data collection from public Reddit posts and comments. It will NOT post, comment, vote, or interact with Reddit content in any way.

Provide examples, the more detailed this description the more likely we will be able to assess your request.

**What is missing from Devvit that prevents building on that platform?**
